no longer used - it has been replaced by ODI. It was mainly used to load data from external sources into Essbase.

Oracle Data Relationship Management

Oracle Hyperion Financial Data Quality Management, Enterprise Edition supports loading data into EPM applications from general ledger source systems and writing back data from target EPM Oracle Hyperion Planning applications to general ledger source systems.

Oracle Hyperion Data Relationship Management

Download File PDF Hyperion Data Integration Management Oracle

Oracle has a competing product called Oracle Data Integrator, and I've noticed lately that in the literature, they are positioning it as the integration tool, with no mention of DIM. Since Oracle Data Integrator does the exact same thing as Informatica, I do not envision DIM being around for very long.
