Wood Chop | Illustrated Exercise Guide

Shift your shoulders forward a few inches and lower down to four-limbed staff pose (chaturanga dandasana). Bringing the shoulders slightly in front of the wrists before lowering helps you get the alignment right in the final pose. If you are getting tired, lower to your knees since doing chaturanga incorrectly can injure your shoulders over time.

A fireman's carry or fireman's lift is a technique allowing one person to carry another person without assistance, by placing the carried person across the shoulders of the carrier.. The technique was commonly used by firefighters to carry injured or unconscious people away from danger, but has been replaced in firefighting due to the drawback that smoke and heat are greater higher up, and may ...

Fireman's carry - Wikipedia

Rich-Joseph Facun / Getty Images. Common in the Arab Gulf countries, this a cloak for women that is worn over other clothing when in public.The abaya is usually made of black synthetic fiber, sometimes decorated with colored embroidery or sequins. The abaya may be worn from the top of the head to the ground (like the chador described below), or over the shoulders.
