The Impact Factor and Scientific Journals Impact Factor Scientific Journals 2011 The JCR's major tool is the Impact Factor (IF), which is a measure of the frequency with which an "average article" in a journal is cited during a particular period. Most often the 2?year IF is used for journal ranking.

SJR : Scientific Journal Rankings

The impact factor for scientific journals is released around June every year by Thomson Reuters, the guru of scientific publication metrics. All science journal editors wait for the new impact factor every year and if you are a publishing scientist you might have seen emails from at least some of the journals bragging on the improved impact factor.

Scientific Journals Impact Factor 2011

The newest JCR report has come out in June. The following are some journals in my research scope. Of course, impact factors do not reflect all the things of a paper; a paper published in a journal with high impact factor does not mean it is better than a paper published in another journal with lower impact factor.
