Added to this was information from the Index of Fungi database (1981-1991), the printed volumes of the Index of Fungi (1940-1980, vol. 1-4), Petraks Lists (1920-1939, parts 1-8 and supplement, 1969), Index of Fungi Supplements, Lichens 1961-1969 (1972) and Saccardo's Omissions (1985).

Index to Saccardo's Sylloge fungorum, volumes I-XXVI in ...

The names were primarily derived from the Index of Fungi (both the paper and on-line versions), Petrak's lists, and Saccardo's Sylloge Fungorum, especially volume 5 (1887). The references were found through an extensive literature search. A few sources proved impossible to trace, and

Index Fungorum - Names Record

The logo at the top left (the idea came from Ken Hudson who is the present compiler of the Index of Fungi) indicates that the underlying database is both a nomenclator (a database of names with nomenclatural opinions) and potentially a checklist of the fungi of the world (names with taxonomic opinions as either a current name or a synonym). The 'S' (from Species Fungorum) encircling the 'IF' (from Index Fungorum) graphically illustrates that for any checklist it is essential to have ...
