Book review: 'Inspired: How To Create Tech Products ...
'INSPIRED is the authority on how to build a product that customers actually want. It's not about hiring product managers – it's about establishing a culture that puts the user first, and builds the organization and teams around that customer to ensure that you are building the best product possible.

Book Review: INSPIRED - How to create tech products ...
I'm happy to announce the results of my big project over the past year, which was to produce and release the second edition of INSPIRED: How to Create Tech Products Customers Love. The book could just as easily been characterized as 'Volume 2' because it is not so much an update, but rather completely new.

Inspired: How to Create Tech Products Customers Love by ...
The basic premise of Inspired is that the best tech companies create products in a manner very different from how most companies create products. The goal of the book is to share the techniques of the best companies. This book is aimed primarily at Product Managers working on technology-powered products.
