I was particularly interested in reviewing this course since it was written by John Hudson Tiner, author of the "Exploring" series of books that I thought were especially well written. In my opinion Tiner's writing style proves to be critical in Integrated Physics & Chemistry. He takes two subjects that are often presented as disjoint collections of information and turns them into historical ...

Integrated Physics & Chemistry is one program that I regret our older children did not have the opportunity to use. It would have been perfect for them because it introduces both physics and chemistry in a way that they would not have found intimidating. This entry-level, applied course gives teens a thorough grounding in basic chemistry and ...
