Brief history of the International Code of Signals.

The International Code of Signals is descended from a long line of naval signals including semaphore, heliographs, lighthouses, and more. The basic idea is that combinations of single flags can be used with a standardized code book to communicate with other vessels in close proximity. If there are N distinct flags in the flag bag, then you can send $(N n + N (n-1) + \dots + N 1 + N 0)$ distinct ...
