### International Taxpayers | Internal Revenue Service

International taxation is the study or determination of tax on a person or business subject to the tax laws of different countries, or the international aspects of an individual country's tax laws as the case may be. Governments usually limit the scope of their income taxation in some manner territorially or provide for offsets to taxation relating to extraterritorial income. The manner of limitation generally takes the form of a territorial, residence-based, or exclusionary system. Some governm

### **International Company Taxation And Tax**

International Business Taxation. Generally, other countries assess the same types of taxes as the United States ( US ), such as taxes on income or profits, payroll taxes, and consumption taxes, such as sales, excise, and value-added taxes. Value-added taxes are much more prevalent in Europe and account for much of the governments' tax revenue.
