lower the third tones in minor scales. Slightly exaggerate all accidentals— put sharps higher and flats lower. Tune all notes possible to open strings using pure octaves and fourths and when necessary,...

Intonation On The Cello And

The question at hand, therefore, is what are some basic ways we can develop better intonation on the cello. First, let's define faulty intonation. Faulty intonation is the failure to tune intervals (the distance between pitches), both melodically and harmonically (intervals played harmonically are notes that sound simultaneously and melodic intervals are played successively).
