The Latin cogito, ergo sum, usually translated into English as "I think, therefore I am", is the "first principle" of René Descartes's philosophy. He originally published it in French as je pense, donc je suis in his 1637 Discourse on the Method, so as to reach a wider audience than Latin would have allowed. It later appeared in Latin in his Principles of Philosophy, and a similar phrase also ...

John von Neumann (/ v n n m n /; Hungarian: Neumann János Lajos, pronounced [n jm n ja no l jo]; December 28, 1903 – February 8, 1957) was a Hungarian-American mathematician, physicist, computer scientist, engineer and polymath.Von Neumann was generally regarded as the foremost mathematician of his time and said to be "the last representative of the great ...

John von Neumann - Wikipedia

The addition of nano-ZrO₂ and micro-WC to cermet reduces its wear rate and surface friction coefficient [].Under the same conditions, the mechanical properties of nanocomposites with micro-TiB₂ and Al₂O₃ as the main body and nano-ZrO₂ as the second phase are higher than those of pure ZrO₂ nanomaterials []. A number of nano-reinforcing phases are added to the matrix to obtain ...
