### **An Introduction to Behavioral Endocrinology (Third Edition ...**

In 1849, the following experiment was performed by Arnold Berthold: In Group 1, he castrated a chick which grew up caponized (i.e. with no interest in hens, no aggression toward other males, small comb/wattles, etc). In Group 2, he castrated a chick and reimplanted its testes in its abdomen, and it grew up with normal development/behavior.
