Cryptography - Wikipedia

Al-Kindi took his view of the solar system from Ptolemy, who placed the Earth at the centre of a series of concentric spheres, in which the known heavenly bodies (the Moon, Mercury, Venus, the Sun, Mars, Jupiter, and the stars) are embedded. In one of his treatises on the

# Download File PDF Introduction To Cryptography Coding Theory Solution Manual

subject, he says that these bodies are rational entities, whose circular motion is in obedience to and worship of God.
