1491 is not so much the story of a year, as of what that year stands for: the long-debated (and often-

dismissed) question of what human civilization in the Americas was like before the Europeans crashed the party. The history books most Americans were (and still are) raised on describe the continents before Columbus as a vast, underused territory, sparsely populated by primitives whose ...

Introduction to Natural Language Processing: Eisenstein ...

There is a common misconception [citation needed] that sign languages are somehow dependent on spoken languages: that they are spoken language expressed in signs, or that they were invented by hearing people. Similarities in language processing in the brain between signed and spoken languages further perpetuated this misconception. Hearing teachers in deaf schools, such as Charles-Michel de 1 ...
