IPC J-STD-001G | Soldertools.net
What is a IPC-J-STD-001 Specialist certification? Certifying operators to IPC-J-STD-001 means that they are officially recognized by the IPC as having a working knowledge of the quality requirements set forth in the specification, and being qualified to use the IPC-J-STD-001 standard to ensure quality in their own work. ...

IPC-A-610 vs J-STD-001 and What Does What | EPTAC
Whereas IPC J-STD-001 is a material and process requirements document and is critical for use during manufacturing, IPC-A-610 is a post-assembly acceptance standard. Translations of the F revisions and training programs based on the revised standards will be released in the coming months.

Frequently Asked Questions and Answers | EPTAC
IPC-A-610 vs J-STD-001 and What Does What. Question: I just wanted to ask a quick question. I've always believed that IPC-610 was an inspection of PCB assemblies and J-STD-001 was the actual operation of soldering. Is this correct? Answer: This can be answered quickly with the response YES. You should keep in mind that J-STD-001 is the ...
