Imitation test and online tests have no scientific basis and are not reliable, resulting in a high rate of false positives and/ or false negatives.

### Amazon.com: Ishihara Test Chart Books, for Color ...

• The Ishihara color test is a test for color blindness. It was named after its designer, Dr. Shinobu Ishihara (1879-1963), a professor at the University of Tokyo, who first published his tests in 1917. It makes use of the peculiarity that in red-green blindness, blue and yellow appear remarkably bright compared to red and green.
