Business Analysis - JAD Session - Tutorialspoint

A proper white paper session (you know getting all your ideas, questions, strategies, goals, objectives, drawings, doodles, schematics, and crazy ideas that seem totally brilliant when they're scrawled all big and spontaneously up on the white sheet, but then seem maybe a little less realistic when typed out in the notes later) requires the following:

Using JAD for an Iterative Approach to Requirements Management

A white paper on JAD

Jad Sessions White Paper

ALSO CALLED: JAD DEFINITION: JAD (Joint Application Development) is a methodology that involves the client or end user in the design and development of an application, through a succession of collaborative workshops called JAD sessions. Chuck Morris and Tony Crawford, both of IBM, developed JAD in the late 1970s and began teaching the approach through workshops in 1980.
