**I've seen a ton of swap questions lately, more than needed that's for sure. Most of them contain garbage information that isn't even half true. Hopefully this post will get a sticky, something this forum has needed for years and considering Element tuning has had this guide forever I'm surprised to see that it hasn't been used as often as it should.**

### **Information you need if you are considering a JDM Engine Swap**

**In car tuning culture, an engine swap is the process of removing a car's original engine and replacing it with another. This may be a like-for-like replacement, or to install a non-factory specification engine. Typically an engine swap is performed for performance, swapping-in a more powerful engine; however, an engine swap may also be performed for maintenance, where older engines may have a ...**
