Jeep Patriot Malfunction Indicator Light

The malfunction indicator light -- or "MIL" -- resembles a car engine. It lights up when the key is in the "On/Run" position, before the engine starts. A MIL that remains lit is indicative of an engine or emissions system problem. The only way to know for certain why it's on is to have the diagnostic codes checked.

Electronic Stability Control (ESC) - Jeep

Just another update, I might have to change the indicator bulb since at start up, it doesnt show up for normal three seconds and shuts off quite fast. Also, if the car is on the on position (but not cranked) the light normally stays on the whole time in its position, instead it goes solid and then it flashes 3 times and turns off.
