Weber Carbs.

This carburetor is a "32/36"
Progressive design. What that
means is the primary throttle plate
is 32mm in diameter, and the
secondary side is 36mm. The
progressive side does not open
until the primary is around 1/3 open.

Weber 32/36 Carburetor Adjustment
- CJclub

Re-jetting is the last, and perhaps the most important function of install-ing the Weber conversion. Correct jetting can make the difference between excellent performance and absolute frustration! While not exhaustive, here are the four major points: 1) A common misconception is that the secondary throats should have larger jets. In this Weber ...
