JNC 8 Hypertension Guidelines | Time of Care

The JNC 8 guideline authors cite 2 trials that found no improvement in cardiovascular outcomes with an SBP target <140 mmHg compared with a target SBP level <160 mmHg or <150 mmHg. Despite this finding, the new guidelines do not disallow treatment to a target SBP <140 mmHg, but recommend caution to ensure that low SBP levels do not affect quality of life or lead to adverse events.
