Carb kits or carburetor rebuild kits are among the most frequently purchased outboard maintenance parts. New gaskets, o-rings, and fuel inlet needles and seats are often required to return a poorly performing motor to good working order. Some carb kits contain floats and some don't. The main carb jets are not in all kits, either, so it's a good idea to look at a complete engine diagram to see ...

Year of Manufacture : This is important in any repair, for obvious reasons. Prior to 1979, Johnson used the last 2 digits of the year in the model number. As a model 10R78M, would indicate a 10 hp, Rope starter, 1978 year of manufacture and M m odel revision. Since this does not have in the code L between the hp designation and the year, that would mean it is a short shaft version.
