These are probably the most important kinesiology corrections of all. It takes a major stress for the centering systems to go out of balance. Stephanie Relfe has found from muscle testing that just some of the things that can cause centering to go out of balance are: Being born. Having a baby.

Finger modes are like morse code

Some branches of kinesiology use hand or finger and body modes in conjunction with a muscle test as a means of gaining more specific information. A finger mode involves the fingers touching at particular points e.g. the pad of the thumb touching the pad of the index finger is a mode for structure.

About Alan Beardall, DC: - Clinical Kinesiology

Applied Kinesiology — An Alternative Healing Method. My father was experiencing pain in the middle and index fingers of his right hand. His doctor said it was probably arthritis and recommended Tylenol and hot and cold compresses. He followed instructions but the pain grew worse until he couldn't bend his fingers. He went to a hand specialist.

Alan Beardall | father pauselock | Pauselockmagic

The Finger Modes, the modern derivative of the Mudra, in the hands of a trained Kinesiologist, are both an assessment tool AND a healing tool. Hand modes accomplish this by uniting various electrical/nadi terminals in the fingers, that in turn activate different areas of the brain, as well as the sympathetic and parasympathetic nervous systems.

Sign Language of the Soul -Hand Modes of Healing

In addition, the book contains approximately 87 photos of various finger modes used in Hugo's workshops, as well as in Applied Physiology workshops plus other useful finger modes. There is also information on 'Formatting' to access 35 organs/glands and other useful physical structures.
