Knowing What Students Know: The  
Science and Design of ...

In essence, it's our work as educators  
to know what our students know. It's  
this knowledge that creates a map for  
us to use to adjust our curriculum,  
instruction, and assessment practices  
to more closely meet our students'  
learning needs.

measurement can form the foundations of an improved approach to assessment. These advances suggest ways that the targets of assessment-what students know and how well they know it-as well as the methods used to make inferences about student learning can be made more valid and instructionally useful.

Knowing What Students Know | Blog | Naiku

Importance of Knowing Your Students. Last week, one of our students had a mild seizure. At the time, we didn't realize it was happening. The classroom teacher asked him a question and he stared up at her and didn't respond.
