The Series II Land Rover launched in 1958 was larger, heavier and more complex than the original, and there was an ever-present need for higher powered engines. Also, the Rover petrol engines in use at the time, with the archaic Inlet-Over-Exhaust valve layout and were approaching the age of 20 years in design terms. A new, larger petrol engine specifically developed for the Land Rover was needed.

Land Rover Defender parts catalogue and workshop manual ...

greetings. I'm here on a cross border raid from the defender side of the forums! I've just bought a discovery 200tdi engine, and was wondering if anyone knew where I could get the workshop manual for it, electronically, and for free, as I can't afford to get a hard copy until the end of the month after spending lots of the engine, and I was hoping to do the cam-belt before then.
