This Flight Manual Supplement is applicable to aircraft equipped with Unison's LASAR® system. 2. GENERAL. LASAR® is the integration of microelectronics with traditional magnetos to provide controllable ignition for optimizing engine performance, while providing dual mechanical backup ignition for redundancy and safety.

Lasar Magneto Maintenance Overhaul Manual

Magnetos are engine-driven self-contained units that supply electrical current without using an external source of current. Magnetos are frequently not maintained to requirements specified in L1363 Manual- 4300/6300 Series Magneto Maintenance and Overhaul Manual, probably because they're so reliable and all engines have a redundant magneto.
