Overview. In the scientific method, an experiment is an empirical procedure that arbitrates competing models or hypotheses. Researchers also use experimentation to test existing theories or new hypotheses to support or disprove them.. An experiment usually tests a hypothesis, which is an expectation about how a particular process or phenomenon works.. However, an experiment may also aim to ...

Computer Science | Stanford University

Citizen Kane is a 1941 American drama film produced and directed by Orson Welles, who also co-wrote the screenplay with Herman J. Mankiewicz. The picture was Welles's first feature film. Considered by many critics and filmmakers to be the greatest film ever made, Citizen Kane was voted number 1 in five consecutive British Film Institute Sight & Sound polls of critics, and it topped the American ...
