*Linear Systems Theory Second  
Edition - chapter 1*

*As mentioned in Section 1.1, in the  
theory of linear systems it is common  
to allow impulse (generalized)  
functions in the kernel. For example, in  
(1) suppose  $h(t) = g(t) + g_0\delta(t)$ , where  
 $g(t)$  is a piecewise continuous function*
