### Indian English - Definition and Examples

English is an Indo-European language and belongs to the West Germanic group of the Germanic languages. Old English originated from a Germanic tribal and linguistic continuum along the Frisian North Sea coast, whose languages gradually evolved into the Anglic languages in the British Isles, and into the Frisian languages and Low German/Low Saxon on the continent.

– particularly human – languages.. The scientific study of language is called linguistics. Questions concerning the philosophy of language, such as whether words can represent experience, have been debated at least since Gorgias and Plato in ancient Greece.

Faculty | Department of Linguistics

English in India "[I]n India, those who consider their English to be good are outraged at being told that their English is Indian. Indians want to speak and use English like the British, or, more lately, like the Americans. This desire probably also springs from the fact that it is a second language for most Indians and to be able to speak a non-native language like native speakers is a matter ...
