Essay on Logitech Case Study - 2997 Words | Cram  
Logitech Case Study Jim Daley IB303 050 3/17/08 1) The cost to the American consumer would increase drastically. It would increase because the product would be fully assembled here in the U.S. which would increase the cost of labor. Having to hire more laborers would increase the amount of money going to their pay which would then increase the price of a product by several hundreds of dollars.
