Loncin Atv Wont Start
The ATV won’t jump start. If you are not able to jump start your ATV, it may not be a dead battery that is causing your starting issues. Make sure you are following the proper procedure for jump-starting an ATV. The ATV won’t pull start. If the ATV starts with the electric starter, it should start with a pull starter as-well.

Loncin Atv Wont Start - krausypoo.com
If your ATV engine is not getting enough fuel, it won’t run properly. You’ll notice it bogging down and just not having the power it used too. If you’re not getting fuel to the engine at all, it won’t even start for you. The most common reason an ATV engine is not getting fuel usually has to do with the carburetor.

Loncin Chinese ATV Repair, Day 1, Wont Start - YouTube
Start by spraying some carb cleaner or ether into the carb or injectors and then try to start up the engine. This could help you start to narrow down the issue. For a more in depth, step by step guide on how to troubleshoot fuel issues on your ATV, check out my ATV Not Getting Fuel: Common Reasons And How To Fix article.

ATV Wont Start: Common Problems And How To Fix - ATV Helper
To fix a kid’s ATV that won’t start due to the cold, open the choke fully. Then start the engine and leave the choke open. Run the engine for a couple of minutes to allow it to heat up. If the above does not work, then consider checking the battery. Sometimes the battery might also be cold and thereby fail to start the ATV.

Starts but won't Accelerate | Honda ATV Forum
I just bought a small tao 125 atv. it runs great but gas keeps leaking through the bottom tube on the carburetor. Also, the start switch on the handle bar will not even turn the starter. It's like it isn't making a connection. I've disassembled it and it looks like everything is hooked up.

Got wet - won't start - please help! | Can-Am ATV Forum
Likely won't help, but worth a shot, if that's what that is. If you leave your machine sit for long periods between rides, you should always turn the fuel off and drain the carb. I just shut the fuel off and then let it run until it dies to drain mine, but you can also use the drain plug to do it.
