Loss Models: From Data to Decisions - Stuart A. Klugman ...

The aim of this course is to introduce students to the modelling of loss data in an insurance related setting.

Loss models are used by actuaries to estimate the expected loss with the insurance industry. These models will also be used to provide estimates of premiums on an annual basis.

[Offer PDF] Loss Models: From Data to Decisions,4th ...

Alternatively, you may want to construct a nonparametric model (also called an empirical model) where the goal is to determine a model that essentially reproduces the data. Such models are discussed in Chapter 12 At this
