While modern books are born digital, books old enough to be in public domain may never have seen a computer. Google has been scanning books from public libraries and other sources for several years. That means you've got access to an entire library of classic literature that you can read on the computer or on a variety of mobile devices and eBook readers.

This is a real modern jazz movie; there are precious few of those notwithstanding the efforts of those who have gone before or since. The "buddy" aspect, ala "Brian's Song" is well done, but for me, the energy is in the music, which is given as much rein as a drama in Hollywood permits. This music is mainstream hard bop, superbly performed by Chuck Findlay (trumpet) among others. I believed .
