SparkNotes: Frankenstein: The Monster

If I had the wherewithal to slap my head in frustration anymore, Frankenstein Island would have given me a brain concussion. There is a lot of story potential wasted, especially with the cavegirls, whose characterizations are still stuck back in the 50s, with Warren's early movies.

How Frankenstein's Monster Became Human | The New Republic

The monster is Victor Frankenstein's creation, assembled from old body parts and strange chemicals, animated by a mysterious spark. He enters life eight feet tall and enormously strong but with the mind of a newborn. Abandoned by his creator and confused, he tries to integrate himself into society, only to be shunned universally.

The Island of Doctor Moreau is an 1896 science fiction novel by English author H. G. Wells. The text of the novel is the narration of Edward Prendick, a shipwrecked man rescued by a passing boat who is left on the island home of Doctor Moreau, a mad scientist who creates human-like hybrid beings from animals via vivisection. The novel deals with a number of philosophical themes, including pain ...

The Island of Doctor Moreau - Wikipedia

Frankenstein wanted a mate and the character in The Island desired deeply to have a woman with him while struggling to overcome difficulties. I believe that both the book and the film subliminally stress the need for a woman and her influence in making the world come into harmony.
