LibGen is a unique concept in the category of eBooks, as this Russia based website is actually a search engine that helps you download books and articles related to science. It allows you to download paywalled content for free including PDF downloads for the stuff on Elsevier's Science Direct website. Even though the site continues to face legal issues due to the pirated access provided to books and articles, the site is still functional through various domains.

Kordin II Cover Up: Very Early Human Presence in Malta Has Been ...
Malta's earliest stone structures predate Stonehenge and the Pyramids and historians still don't know what happened to the civilization that produced them. They seem to have virtually disappeared from history without any indication of their fate.

Uncovering Malta's Megalithic Temples (including map)
The Mediterranean island of Malta figures in the historical record of Europe due to its association with the Knights of St. John of Jerusalem who fled to Malta from the island of Rhodes in 1530. Yet this small island of 243 square kilometers has a far greater importance in European prehistory due to its extraordinary collection of megalithic temples.

The megalithic temples of Malta have been dated back to the 4th Millennium BCE. The oldest of the major temple sites, Ggantija in Gozo, has been dated, on the basis of recalibrated radiocarbon dating, to 3600 to 3000 BCE, the "youngest", Tarxien, to 3000 to 2500 BCE. This is therefore, a civilization that lasted at least 1000 years.

Megalithic Temples of Malta - Wikipedia
The large stone temple structures on Malta are amongst the earliest such constructions in the world, long before the pyramids were built in Egypt. This super book forms a pictorial record of all the temples on Malta, whilst also providing background information on the social and cultural history of the period.
