Amazon.com: Customer reviews: Managing the Design Factory

Design Factory exists for one purpose: to make a profit. Profit= sales price - cost. Our sales price is a measure of the value that people attach to our output. If we fail to create sufficient value for customers, then they will spend their money on something else. Sales price is the customer's message that we have done somethings useful.

Managing the Design Factory - Donald Reinertsen - Google Books

Part I: The Design Factory. 1 - Into the Design Factory. Analogizes product development to a bank account that pays no interest and loses money. We should try to view design as manufacturing because: we have thought about manufacturing a lot. manufacturing works with mostly known quantities, repeatable.
