Social Identity Wheel - Inclusive Teaching

The issue of the role of men in the promotion of gender equality is being recognised as a necessary part of gender equality policy. On this account efforts were made to collect basic information and data in the area by mapping relevant actors in the 27 EU Member States whose activity can be considered as contributing to a more effective involvement of men in the promotion of gender equality.

Lessons from the gender mapping project. What's the score?

One of the most important tasks in a sociology of gender course is dismantling the misconceptions that men and women are polar opposites, with instantly recognizable differences in personality traits, interests, and activities. This exercise asks students to guess the gender of unspecified people, based solely personal characteristics.

The Roles We Play. Many words in English are male or female specific. Words like husband, father, nephew and groom all refer to men. Other words like wife, mother, niece and bride only refer to women. Still other words can refer to either men or women: cousin, spouse, sibling, etc. As a class, work together to brainstorm all the different words for referring to a person that are gender specific.

activity that encourages students to identify social identities and reflect on the various ways those identities become visible or more keenly felt at different times, and how those identities impact the ways others perceive or treat them. The worksheet prompts students to fill in various social identities (such as race ...

GENDER MAINSTREAMING SELF-ASSESSMENT

Because body hair is a secondary sex characteristic, we might expect it to be associated with sex alone, rather than with gender. But we chose this example precisely because it demonstrates that something as commonplace and seemingly uncontroversial as armpit hair is subject to the influences of both sex and gender - as are larger or more complicated aspects of life.

(PDF) Mind Maps As Classroom Exercises - ResearchGate
gender mainstreaming and the Human Rights Based Approach to Programming (HRBAP) needs to be strengthened and the implications of diversity on gender mainstreaming should be more coherently addressed within the current strategy.
