We provide a range of services to the book industry internationally, aiding the discovery and purchase, distribution and sales measurement of books.

VHF Radio Distress simulator

Simon Congratulations. Have only spent a few minutes playing but it looks like you have created a nice product - it certainly looks very good. As you are aware schools nowadays tend to use real 'de-tuned' radios rather than simulators but i do feel there is a real place in the VHF course for a simulator that works well.

Simulateur de la VHF marine prise en main.avi

Also, be sure to check out our specialized course on the subject: All About Marine Radio. This course will teach you how to choose the proper Marine VHF radio for your boating style and give you the confidence to operate it effectively.

VHF DSC Radio training simulator - YBW

Marine VHF radio equipment is installed on all large ships and most seagoing small craft. It is also used, with slightly different regulation, on rivers and lakes. It is used for a wide variety of purposes, including summoning rescue services and communicating with harbours, locks, bridges and marinas.

GMDSS Simulator - PC Maritime

Having a marine (VHF) radio aboard your boat can be a lifesaver. VHF radios are the handiest and fastest way to contact other boaters or to ask for help on the water. In an emergency, when you use a radio, anyone with a radio can hear you and can come to your aid, perhaps sooner than first responders.

Amazon.com: Marine VHF Radio Simulator

The VHF DSC Radio Simulator is software, for PC or Apple Mac, supplied on a CD. The program must be installed to the hard drive of the computer and is then launched from its desktop icon when required. At launch, you have a main VHF radio set with all its major functions operating exactly as a real radio.
