Course details. In the final chapter, he shows how to build a real-life reactive RESTful web application step by step using Spring, Jersey, RxJava 2.0, and Java 9. This course was created and produced by Packt Publishing. We are honored to host this training in our library.

### **Mastering Java 9: Write reactive, modular, concurrent, and ...**

Reactiveness is not built in Java itself, but reactive data flows can be established using third-party libraries such as RxJava or project Reactor (part of the Spring Framework). JDK 9 also addresses the need for an API that aids the development of highly-responsive applications built around the idea of reactive streams by providing the `java.util.concurrent.Flow` class for the purpose.
