Mastering Zabbix - Second Edition by Andrea Dalle Vacche ...

A Zabbix proxy is another member of the Zabbix suite of programs that sits between a full-blown Zabbix server and a host-oriented Zabbix agent. Just as with a server, it's used to collect data from any number of items on any number of hosts, and it can retain that data for an arbitrary period of time, relying on a dedicated database to do so. Just as with an agent, it doesn't have a frontend ...

***Deploying Zabbix - Mastering Zabbix - Second Edition
The single-server installation is not suggested in a large
environment. It is the basic installation, where single
servers do the monitoring, and it can be considered a
good starting point. Most likely, in our infrastructure, we
might already have a Zabbix installation. Zabbix is quite
flexible, and this permits us to upgrade this installation***

to the next step: proxy-based monitoring.

Communicating with Zabbix - Mastering Zabbix - Second

...

One of the few drawbacks of the whole Zabbix architecture is the lack of built-in security at the Zabbix protocol level. While it's possible to protect both the web frontend and the Zabbix API by means of a standard SSL layer to encrypt communications by relying on different authorities for identification, there's simply no standard way to protect communication between the agents and the ...
