methodology 3.1 Introduction

Quantitative research designs emphasise objectivity in measuring and describing phenomena (McMillan & Schumacher, 2010). As such, the research design maximises objectivity by using numbers, statistics, structure and control. An important sub-classification of quantitative design is experimental and non-experimental.

9780137152391: Research in Education: Evidence-Based ...

McMillan and Schumacher (1993:15) "qualitative research develops context-bound generalisations," however, it must be highlighted that in some instances research conducted may lead to findings that could be applied to other contexts, settings or to other groups (see Applicability in Section 4.4.2).
