The mental status examination (MSE) is based on your observations of the client. It is not related to the facts of the client's situation, but to the way the person acts, how the person talks, and how the person looks while in your presence. A mental status examination can be an abbreviated assessment done

A Mental State Examination (MSE) is a part of every mental health assessment. Interpretation of the MSE must keep in mind the patient's age and developmental level. If there is any indication of current suicidal or homicidal ideation in the child or adolescent they must be referred for further assessment by a mental health clinician. Background
