## Metronidazole - Infections - MSD Manual Consumer Version

An infectious disease specialist once told me that dentists cause infections. He probably meant that some dentists prescribe them when they aren't necessary. I have been to 3 oral surgeons and they all did things differently. One doesn't give them even after wisdom teeth extraction, and one routinely gives

MSD ... soft-tissue, gum, and tooth infections and abscesses in the lungs or brain. It is the preferred drug for vaginal infections caused by bacteria such as *Gardnerella* species (bacterial vaginosis).

BPJ 43: Appropriate use of metronidazole - bpac

Metronidazole alone will not help your tooth infection. It is too general an antibiotic. What you need is something like Amoxicillin or Clindamycin to attack the bacteria specific to your infection. Sometimes with severe infections, we use a combination of the specific antibiotic with metronidazole, but never metronidazole all by itself.
