Microblaze Quick Reference Guide Supplement [Reference ...

For this tutorial, we are going to add a Microblaze IP block using the Vivado IP Integrator tool. In addition to the Microblaze IP block, a UART (universal asynchronous receiver/transmitter) IP block will be added to communicate between the host PC and the soft processor core running on the Microblaze.

MicroBlaze Processor Reference Guide - ENSIMAG

According to the Microblaze Processor Reference Guide (UG081), hardware acceleration for the Microblaze can be implemented using either FSL or AXI-4 Streaming interfaces. Apart from being a more common interface, is there any reason to prefer AXI-4 over FSL when designing a hardware accelerator for the Microblaze?
