A Mind for Numbers - Stanford Medicine

She represents the number 22 in the 00-99 Major System I use. Every time I see 22, I bring this nun to mind (I actually imagine Mr. Beethoven. More on why later...) I do this because if I next see the number 235, I can see an animal, it's easy for me to use the Major System (be Major Method) to add another image.

How to Find Your Phone's IMEI or MEID Number

1. Short Numbers. The easiest, but least reliable, way of remembering numbers is to use simple Number/Rhyme images associated in a simple system. It is to use a simple peg system, where, for example, you can associate digits from the Number/Rhyme System into positions organized with the Major System . 2. Long Numbers (e.g. Pi)

Brian Johnson's 5V[LZ TM 4VYL>PZKVTPU3LZZ;PTL THE BIG ...

As an example, let's take the (in)famous number 42.. According to the mnemonic table, the digits in the number 42 translate to r and n. We need to form a word with r and n. We should fill the gaps between the letters using the 'neutral' elements (from the last row of the table: w, h or y). The word rain comes naturally to me.
