growth mindset group received eight sessions of study skills plus training in the growth mindset. The key growth mindset message was that effort changes the brain by forming new connections, and that students control this process. The growth mindset intervention halted the students ' decline in grades and started

What is Positive Mindset: 89 Ways to Achieve a Positive ...

According to researcher Carol Dweck, there are two types of mindsets: a fixed mindset and a growth mindset. In a fixed mindset, people believe their qualities are fixed traits and therefore cannot change. These people document their intelligence and talents rather than working to develop and improve them. They also believe that talent alone leads to success, and effort is not required.
