Marine ecu tuning
Shop exhaust systems. The exhaust system on your vehicle is an important part of the combustion process in your engine. The intake side mixes fresh air with usually petrol or diesel, feeds it into the combustion chamber in the cylinder head, where it is detonated (controlled explosion) and the exhaust system takes that residue gas flow and expels it out the back of the vehicle.

I own a 2004 ford f250 6.0l diesel powerstroke and this truck has always preferred Valvoline semi synthetic or full synthetic . I haven't noticed much difference between either but Valvolineakes a quality product and compared to other oils shell rotella or even Lucas the powerstroke seems to like this brand and I have noticed since using Valvoline it quiets down the engine keeps temps lower ...
