3 cyl. vs 4 cyl. Is it true that 4 cylinder engines perform better, are easier to maintain, etc... or is it just an "urban legend"? My 60 HP has a 3 cylinder PERKINS engine, and I feel kind of strange when people start to talk about the "altogether superior" 4 cylinder engines

The 4000 SU had 3 different engines, a 201 ci diesel engine, a 192 ci gasoline engine on the earlier ones made prior to 4/1/68, and a 201 ci gasoline engine on those made on or after 4/1/1968. I assume that it's the one in that ebay listing that you linked to. That one was made on or after 4/1/1968, so it has the 201 ci. gas engine.
