Steam Engine Plans - Plans for Everything. Mostly Free

The Model Engineer beam engine has been a popular model for more than a hundred years. It was first described by George Gentry in 1914. It was revisited by Exactus in 1959 and that is the version usually built today. The engine is of the centre column type and resembles that of the type of engine made by William Fairburn around 1840 - 1850.
