Event ID 16 can also be useful when troubling scenarios where a service ticket request failed because the account did not have an AES key.. Do's and Don'ts of RC4 disablement for Kerberos Encryption Types . That was a lot of information on a complex topic. Here is a quick summary to help you determine your next move.

Decrypting the Selection of Supported Kerberos Encryption ...

First published on CloudBlogs on Nov 23, 2015 Microsoft Intune has always had comprehensive support for managing modern devices (Android, iOS, and Windows) using the MDM framework. As announced last week, I'm excited to share that we've extended our MDM management platform to include support for managing Mac OS X devices. These capabilities are built on the same robust MDM infrastructure
