HTML title tags appear in browser tabs, bookmarks and in search results. It looks like your title tag is a little outside the ideal length. Since they are one of the most important on-page SEO elements you should make your title tags between 20 and 70 characters including spaces (200 - 569 pixels). Make sure each page has a unique title and use your most important keywords.

Book library | Home

yes the book modern geometries by james R smart (is that a joke?) has it all on both sides of one page in the appendix. but the "one page every 8 weeks" density seems high for presentation in the first course. Hey, everybody, I just decided that I want to be a mathematician! Yay! Actually, I just ...
